

Drivers' briefing for 4th October 2020

Welcome back after the COVID-19 Lockdown. This event is being run under strict rules as set out in the HSCCQ COVID-19 policy.

I reiterate that should any of you have a persistent cough, temperature, sneezing etc, please go home and arrange to have yourself tested.

The event is also being run under the Motorsport Australia Rules and Regulations regarding alcohol and drugs. The full policy can be viewed on line – see our Event Secretary.

The event will, as normal, run in accordance with the Motorsport Australia regulations and the Supplementary Regulations accompanying this briefing.

When you lodged your entry forms you also had to lodge a scrutiny form. Someone may visit your pit area to look at your apparel including helmet (required in all Khanacross Vehicles). Please have these items ready. The scrutineer will not be touching your clothing so please make sure you display them in a considerate manner.

At this stage I am not sure who our key officials will be except me. If you are going to assist with time keeping or some other role please ensure that you have signed on. While this event is in progress please obey social distancing at all times. This includes not hanging around the timing tents.

As spectator numbers are severely depleted, driving between test areas should be easy. However, you must still drive slowly and in a safe manner.

Please remember we do not provide lunch. If you need to go and get your lunch please remember we are locked down so you will need to inform the timekeepers and the COVID-19 compliance checker (Noel Caplet) before leaving the venue and advise us when you return.

I hope you all enjoy the day. Should you need clarification on any matter please contact me via my email – marycaplet07@gmail.com.

Mary Caplet
Clerk of Course
